

## Colors

--Define a Clear Purpose: Establish the main goal of your design project.

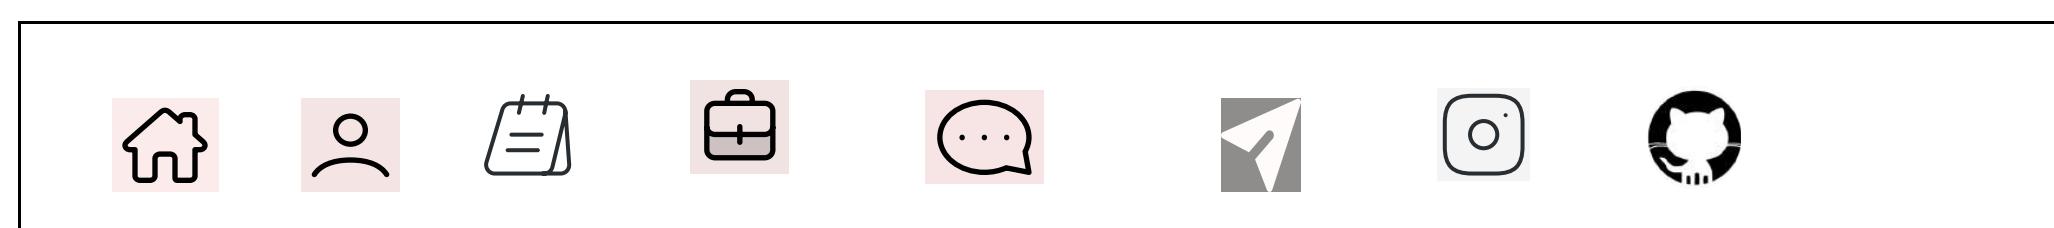

## Components

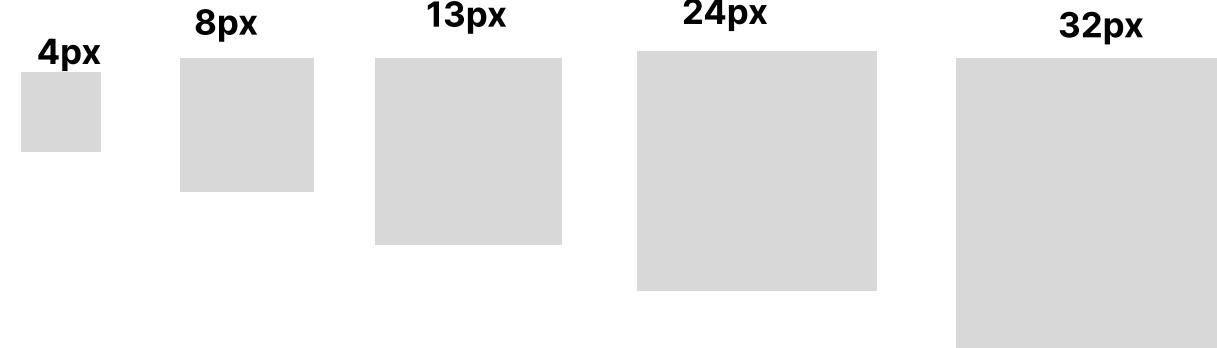

--Use a Consistent Color Palette: Limit your colors to a cohesive set for brand consistency.

## Icons

## Spacing

--Maintain Typography Hierarchy: Use distinct font sizes for headings, subheadings, and body text.

--Utilize Grids and Alignment: Ensure elements are aligned and spaced evenly for a clean layout.

--Create Reusable Components: Design buttons and UI elements as components for consistency.

--Incorporate Responsive Design: Use auto-layout to adapt designs for various screen sizes.

--Focus on User Experience: Prioritize intuitive navigation and accessibility.

--Gather Feedback: Share prototypes with team members for input and improvements.

--Document Your Design Decisions: Keep notes on why design choices were made for future reference.

--Stay Organized: Name layers and group elements logically for easy navigation within the project.

Welcome to My Portfolio

Hana Melese

I am a **Software Engineer**

I am currently a third-year Software Engineering student at Addis Ababa University, where I am developing my skills in software development, problem-solving, and project management. I am passionate about creating innovative solutions and continuously improving my technical expertise.

## About

I'm a passionate software engineering student with a strong foundation in programming and a keen interest in web development. My journey in technology began with a curiosity about how software shapes our daily lives. I've developed skills in languages such as Python, JavaScript, HTML, and CSS, and I enjoy working with frameworks like React and Node.js. Through my academic projects and personal initiatives, I've honed my ability to solve complex problems and create user-friendly applications. I'm excited to continue learning and growing in this dynamic field, and I look forward to contributing to innovative projects that make a difference.

### Personal Information

Name: Hana Melese  
Age: 20  
Email: [hanamelese95@gmail.com](mailto:hanamelese95@gmail.com)  
Birth Date: Jan 20, 2004  
Phone: 0946446656  
City: Addis Ababa

### Education

I am a third-year software engineering student at Addis Ababa University, where I am honing my skills in programming, web development, and software design. My coursework and projects have provided me with a solid foundation in technologies such as Python, JavaScript, and Java, preparing me for a successful career in the tech industry.

Thank You for Visiting!

As I wrap up this chapter, I want to extend my heartfelt gratitude for taking the time to explore my work. Your interest and support mean the world to me. While I'm moving on to new adventures, I welcome your thoughts and connections. Feel free to reach out if you'd like to stay in touch or collaborate in the future. Wishing you all the best in your own journeys!

## Project

During my software engineering studies, I developed a diverse portfolio of projects that highlight my skills in full-stack development, algorithm design, and teamwork. My responsive web applications help users track fitness goals and showcase my proficiency with technologies like JavaScript, Python, and SQL. Each project demonstrates my ability to solve complex challenges, optimize performance, and create user-friendly interfaces. These experiences have enhanced my problem-solving skills and reinforced the importance of agile development practices, resulting in well-received applications focused on user experience and functionality.
